

Connect with female trailblazers!

Shadow scientists!

Explore hidden gems!

Build science skills!

Collect real data in real places!

# HerStory in STREAM

A FREE four-part middle to high school program empowering today's girls to make **history herstory** in freshwater Science, Technology, Recreation, Engineering, Art, and Math (STREAM)

6 SUBJECTS +  
4 SESSIONS =  
INFINITE ADVENTURE!

Join Stroud™ Water Research Center for **HerStory in STREAM**, a FREE four-session environmental education program designed to grow STREAM skills, confidence, career awareness, environmental leadership, and watershed literacy among female trailblazers aged roughly 11-17 in Chester County, Pa. Shadow experts in STREAM careers while exploring local waterways, water chemistry, aquatic insects, freshwater habitats, and so much more this fall!

**NOTE:** Participants welcome include cis girls, trans girls, gender-nonconforming youth, non-binary youth, and all youth who experience girlhood as part of their unique journey.
